

# HYDRO'Dos

## Economical dosing SEVERAL APPLICATIONS

Dosing of all type of products

### Applications

- Chemical dosing for water treatment
- Flocculation dosing
- Dosing of aromatical substances, disinfectants...
- Any application with low flow and low backpressure (<1,5 bars)

***French Manufacturer***

## Advantages

- ✔ Small size
- ✔ Different pumps flow available (from 0,4 to 2,4l/h)
- ✔ Quiet dosing pumps
- ✔ Easy to use
- ✔ Reduction of spare parts
- ✔ Suction and dosing of many products even degassing
- ✔ Price / Quality ratio

## Technical features

Unit Code	Flow rate* max. of of backpressure max.			Connections dimensions (Ext x Int) mm	Suction height** m water column	Priming height** m water column	Pressure admitted on the suction side Bar
	Bar	50 Hz	60 Hz				
HYD2220	1,5	0,4	0,48	6x4	4	2	0,5
HYD2221	1,5	0,8	0,96	6x4	4	2	0,5
HYD2222	1,5	1,6	1,92	6x4	4	2	0,5
HYD2223	1,5	2,4	2,88	6x4	4	2	0,5

\* Depends on the backpressure

\*\* Values were determined with water

## Accessories

Reference	Designation
DF25000	Accessories kit of PP for peristaltic pumps (valve, injector and pipe)
