

New in 2021

FOR AN OPTIMAL WATER QUALITY

pH and Chlorine control panel with integrated,
silent and self-priming peristaltic pumps

Equipment dedicated to private swimming pools TOP OF THE RANGE

TRULY PROFESSIONAL EQUIPMENT!

New **HYDROTouch** pH/Chlorine

This equipment is used to control and manage the pH and chlorine in the pool:

- **Measurement of free chlorine**
- Direct reading in mg/l equivalent to DPD1
- Pre-assembled and pre-wired panel for easy use and installation
- Analysis cell with integrated water shortage controller and the possibility to adjust the flow rate
- Self-diagnosis of the quantities of products injected with overdose alarm
- Adaptable solution from 40 to 80 m3

The **PLUS:**

- Simplified commissioning
- Large touch screen for better visualization
- Self-cleaning chlorine probe
- Ease of use
- Low maintenance and low consumables
- Self-priming peristaltic pump to avoid siphoning of products
- Remote monitoring (optional)
