POOL Controllers

ALTICEO

Public/Municipal Swimming pools

- Several pools
- Multi-parameters

ODITouch

Public/Municipal Swimming pools

- Single pool
- Multi-parameters

TEREOTouch XL

Hotel/Campings Swimming pools

- Single pool
- pH + Chlorine or Bromine + T°

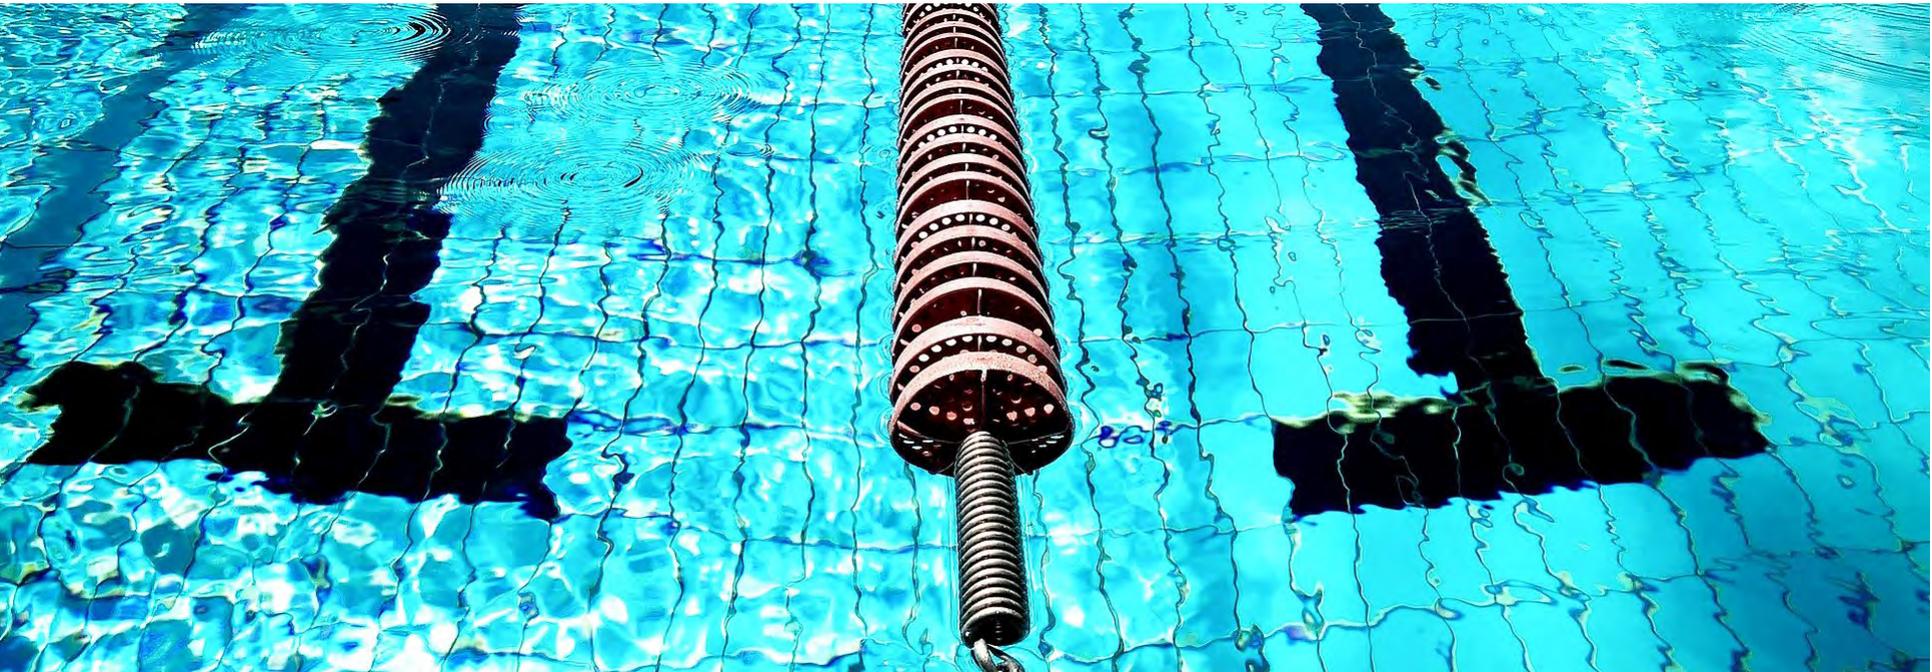

HYDRO Touch

Private Swimming pools

- Private pool
- pH + ORP
- pH + Chlorine

1

Public Swimming Pools

Water sports center of Pau (France)

Water sports center with:
a learning pool + a playful pool with
bubble seat + a counter-current river and
hydromassage beds + a 50 m outdoor pool
(8 corridors) heated all year

Material:
Controllers + Chlorine gaz

Multiplex of Saint-Gilles-Croix-de-Vie (France)

ADVANTAGES

- + Control of several pools
- + Control of several parameters
- + Easy to use thanks to the touch screen

Aquatic multiplex with:

- 2 sports pools of 25m including a Nordic pool heated to 28° + 1 learning pool with balneo area (counter-current river and bubble benches) + 1 pool reserved for the practice of aquasport and specialized activities (baby swimmers, pregnant women, fear of water, ...) + 1 paddling pool with water games for toddlers + 1 pentagliss for fun + 1 wellness area with jacuzzi, saunas, hammam and cold water bath + Water and land playgrounds, outdoor beaches.

Material:

4 ALTICEO controllers : chlorine + pH + Temperature measure and control / chloramine calculation for indoor pools + 3 TRACEO controllers : ozone absence measurement for the 3 ozone circuits

2

Zoos

Aquatic Park Marineland of Antibes (France)

ADVANTAGES

- + Control of several pools
- + Control of several parameters
- + Special measurement for seawater
- + Easy to use thanks to the touch screen

Aquatic Park with:

Different pools for killer whales, dolphins, sea lions, sea turtles, sharks, penguins...

Material:

3 ALTICEO controllers : bromine sea water (copper/platinum sensors) + pH + temperature control

7 EVASION controllers : bromine sea water (copper/platinum sensors) + pH + temperature control

(old version of ALTICEO)

10 INDIGO controllers : pH and chlorine *(material replaced new by the TERE0 Touch XL version)*

Aquatic Park Marineland of Antibes (France)

3

Hotels, Campsites

Beaumont***** Hotel in Pau (France)

ADVANTAGES

- + Very simple to use
- + Very good quality/price ratio
- + Specific device use for campsites and hotels
- + New models : TERE0 Touch XL with large screen touch

Hotel with:

An indoor pool heated all the year and spa

Material:

1 TERE0 controller : chlorine and pH control + measurement of the temperature

Beaumont***** Hotel in Pau (France)

Campsite Blue Ocean in Ondres (France)

ADVANTAGES

- + Very simple to use
- + Very good quality/price ratio
- + Specific device use for campsites and hotels
- + New models : TERE0 Touch XL with large screen touch

Campsite with:

An outdoor pool heated all the year

Material:

1 TERE0 controller : chlorine and pH control + measurement of the temperature

Campsite Blue Ocean in Ondres (France)

4

Thermal centers

Wellness centers (France)

ADVANTAGES

- + Control of several pools
- + Control of several parameters
- + Easy to use thanks to the touch screen
- + Some sites are still using controllers that are more than 15 years old

Wellness with:

Outdoor and indoor pools + baths, saunas, spas...

Material

EVASION (old generation) or ALTICEO controllers : numbers of controllers depending the sites. Main measurements: Temperature + pH + Chlorine + chloramine for indoor pools

Wellness centers (France)

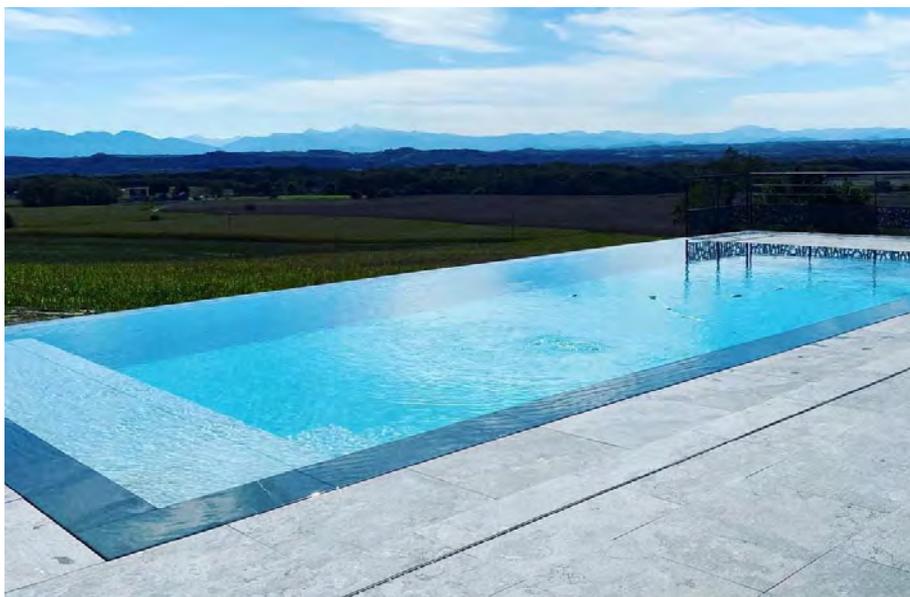

5

Private swimming

Different installation in France

ADVANTAGES

- + Control of all type of pool
- + Adapting to different pool treatment
- + Easy to use thanks to the touch screen
- + Very efficient range

Private swimming pools with:

All volume and type of pool

Material

HYDRO Touch range for pH, Redox, Chlorine, salt generator control...
